

Dear Martin Luther King Jr,

The strategy of nonviolence means that doing something about an issue yourself without hurting anyone. Even though we want to fight back. We don't fight back because we believe in you Martin Luther King Jr because you said that peace and love will conquer racism.

I think nonviolence will not work in Alabama because some of us can't stand being called names. Getting food dumped on us. Getting beat up all the time. Also not being treated right. Another reason I think nonviolence will not work in Alabama is we have lived like this for ever we might not be ready to live in a different way. Thank you for teaching us about nonviolence. However I believe in nonviolence I also believe if somebody hit me I should be able to hit them back.

Sincerely,

3B126

Dear Mr. King,

The strategy of non violence means. That do not fight with hitting people. fight with marching and with your own words. that is what i think nonvileence means.

I think nonviolence will not work in Alabama. becouse I would not want my child to get hurt. I also think it will not work. Because my children will not like ther friends and family get hurt. That is my opinion. Why non-vidence will not work in the state of Alabama. I also do not want my child to go to jail and get beatin alot.

Sincerely,

Black Parent
